

stamina_pot::add_stamina_pot

stamina_pot::dell_stamina_pot

stamina_pot::Set_new
_All_weight_stamina_pot

```
graph LR; A[stamina_pot::add_stamina_pot] --> C[stamina_pot::Set_new  
_All_weight_stamina_pot]; B[stamina_pot::dell_stamina_pot] --> C;
```

The diagram illustrates a mapping from two source functions to a single target function. On the left, two white rectangular boxes with black borders contain the text 'stamina_pot::add_stamina_pot' and 'stamina_pot::dell_stamina_pot'. On the right, a gray rectangular box with a black border contains the text 'stamina_pot::Set_new' followed by '_All_weight_stamina_pot' on a new line. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both source functions are associated with or mapped to the target function.
